## Fast Duplicate File Finder 4.7.0.1 11 Fix

[Download](#)

May 27, 2014 – Version 4.0.0.1 of the popular Fast Duplicate File Finder has been released. This new release introduces some fixes and two new features. Capturing allows you to quickly take screenshots and save them as images. To do this, right-click on the program icon in the Windows notification area, select "Open" and "Capturing screenshot". A new "Quick delete" function has been added to the "File history" section. Right-click the program's icon in the Windows notification area and select "File history". Now you can immediately quickly delete selected files in the "Quick delete" window. Also in the new version:
