Guitar Rig 5 Presets Pirate Bay

As you see, it's a free collection on my site called "Guitar Rig 5 Presets". The aim is to help you, by providing the best preset sounds for Guitar Rig 5, which will allow you to finish your tracks much faster and easily. The download is completely free, there are no conditions, you don't have to follow a guideline, just download it - and experience Guitar Rig 5 instantly with preset sounds. The Presets are created using our own algorithms to give you the best possible results. They are based on user feedback and submitted presets, that's why they may differ a bit from the stock preset sounds provided by the bundled software. The download offers you more than 150 presets. They are spread over different categories and different material types: electric guitar, acoustic guitar, bass guitar, jazz guitar, strings, metal, solo guitar and drums. So you'll find presets for different styles and methods, from acoustic to clean, metal to heavy. You will also find presets in BROWSE category, which contain the presets of our bass guitar experts in our workshop. You will find many presets of many different artists, ranging from the most famous artists to new unsigned talents. All files come in both the WinRAR and ZIP format to easily manage the presets and to have them with you on a USB stick or as a.zip archive. If you are not satisfied with the presets, do not hesitate to send us your feedback so we can improve it. The latest version will be always available on our website as soon as it is released. The presets can be used on any version of Guitar Rig 5. They will fit any devices that supports Guitar Rig 5. Download Guitar Rig 5 Presets, they will simply save your work and time.
