Since 1996, the FIFA series has been at the forefront of videogame football. This year marks a new era for the franchise, with a focus on innovation across the game modes. What's more, in FIFA 22, each team is constructed and balanced to play differently to what we've seen before. FIFA 22 also features fundamental gameplay advances that bring the game closer to the real thing.

Key Features

CONFIGURE YOUR PLAYER FIFA 22 makes the depth and potential of your player available before you even step onto the pitch with a new Player Creator. Customise your player down to every last detail, including attributes, hairstyle and hairstyle update, and kit. Even choose where you want the face to be printed for the player on the new 3D chestplate - a feature which has never been available in the series.

POWERFUL NEW KICKS AND PENALTIES With some of the most advanced physics-based animation in a videogame, FIFA 22 delivers football like never before. Players will feel more powerful in off the ball situations, and FIFA 22 introduces many new moves and deliveries to add greater variety to the beautiful game. Break your opponent's legs, face a defender down with a thundering header, or get on the end of a long diagonal ball to make the final movement with a raking and curling shot.

CRACK IT FIFA 22 introduces the new One Touch Control, which lets you choose the exact moment when your player meets the ball. If

you know a certain shot is going to be vital in a certain situation, select One Touch Control and you'll be able to call on your player with the touch of a button. Either play exactly how you want, or alter a pass by selecting the near and far options. DRIVE IT FIFA 22 introduces a new Take On style of play, letting you set up a powerful shot directly from the opposition's half of the pitch. In a battle to win the ball back in midfield, either keep the ball and prepare to pass to a teammate, or aim for a through-ball with a powerful drive of your own. LEAD IT LEAD YOUR PLAYERS Step up to take control as a team captain. Your entire squad now can be led in new ways, including forming a team from the mobile app, or having multiple off-ball players controlling individual players while you take control as a leader.

RESPONSIBLE GAMING Computer games have become extremely popular among young people due to the wide range of attractive features that make such games so easy to enjoy. The thousands of games that are available for play on various types of devices, including smartphones and tablets, provide a great diversity of gameplay, from basic games to complex adventure games, from hidden object games to racing games. There are games that have their own storylines, involving other characters from the gaming universe (role-playing games), on board a spacecraft (simulation games), in a world of fantasy (RPG) or in a space (strategy) and on bodies (sports simulations). These games present the player with a number of characters (players), each one with their specific skills and abilities, who compete against one another in a world with an established framework (storyline), designed to meet the current demands of this type of games. A game in any of the above-mentioned categories is usually accompanied by a

player aid document, in which the terms and conditions of the game, a description of the people who will be the “players”, how the game is played, and the rules in relation to the game are set out. These documents generally include terms and conditions which set out the requirements that must be met in order to play, as well as rules for how the game is played, which include the different rules of progression (initiative, controlling the ball, etc.) for each stage of the game. As this type of games is played on
